

TMC's Springtime Success

As we move into the warm spring season and celebrate the end of one of our most successful quarters, we want to thank you for your business. We at TMC look forward to continuing to provide your business with the lowest cost, highest-quality telecommunications products and professional, knowledgeable customer care 24 hours a day, 7 days a week.

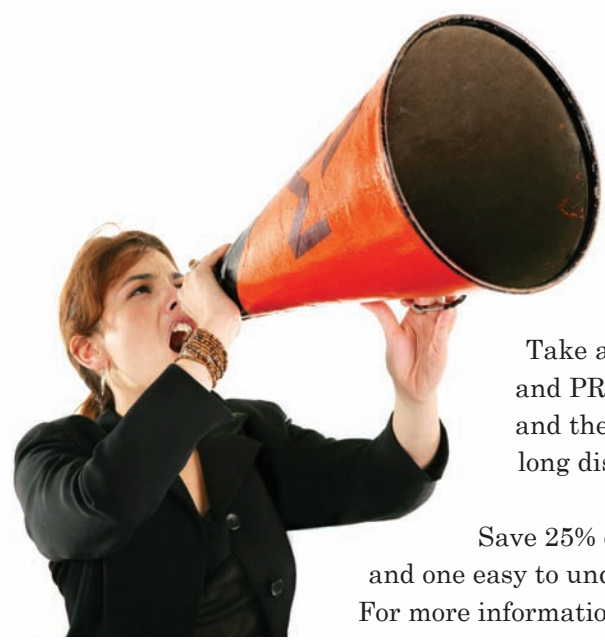

You are doubtless aware of the rapid advancements being made in the telephone business. TMC continues to develop and provide you with all of the newest, next-generation telecommunication products. We are now offering our ClearSIP Origination and Termination service, which allows businesses like yours to terminate calls through the TMC network over the internet using the SIP protocol. It's similar to dedicated voice termination, except you are able to use the internet as opposed to traditional hardwire connections. This is a great way to take advantage of our ability to route to multiple carriers with least-cost routing for the best rates without having to build your own network.

We're very excited to announce our reentry into the local arena. Not only are we able to offer local T1s, PRIs and dialtone with savings of over 25%,

but we also provide the live, 24/7 customer service that you have come to expect. Details below.

For more information about the latest TMC products and company information, please visit our website at www.tmccom.com. If you would like to more about the services we offer or have a question about your account, please call your Sales Representative or us directly at any time by dialing 866-999-1155. Our live, knowledgeable Customer Care Representatives are available to assist you 24 hours a day, 7 days a week.

Local is Back!

As a California CLEC, TMC now brings you local dial tone with exceptional long distance rates.

Take advantage of the benefits of our new Local Integrated Voice and Data T1s and PRIs. Enjoy enhanced features, flexible capacity, Direct Inward Dialing (DID), and the reliability and support you deserve, at a fraction of the cost of traditional long distance service.

Save 25% or more off your Verizon bill while receiving friendly, live customer service and one easy to understand, consolidated monthly bill. Coverage available in California only. For more information, call your Sales Representative or TMC directly at 866.999.1155.

Paetec and Broadwing (Previously Focal)	Coverage	Benefits
Local Integrated Voice and Data T1s and PRIs	California only	Great pricing
Verizon		24/7 live customer care
Local Dial Tone – Centrex and Business Lines		One easy-to-understand, consolidated invoice

“ As one of the largest market research data collection and information providers in the US, our business relies heavily on telecommunication services. The top-rate team at TMC Communications not only has the telecommunications knowledge and experience to quickly resolve issues, they provide solutions that are in the best interests of our company. ”

—John Fitzpatrick, VP of Info Systems and Technologies, Interviewing Service of America (ISA)

TMC: Meeting Your Data Demands

In today's fast paced world, data requirements are higher than ever. As technologies advance, businesses' data needs grow significantly. At TMC, we offer a full suite of data and voice products, enabling you to stay on top of the competition. With TMC, you don't just get a product; you get a solution. We work with you to create a custom telecommunications package that meets your demands.

We will ensure you receive the right product, right capacity, right quality of service – and the right price. Our knowledgeable team of industry professionals provides complete end-to-end coordination for seamless implementation of data services.

Have a question about capacity and assessing your business' data needs? Just contact your Sales Representative or TMC directly at 866.999.1155.

TMC's Portfolio of Data Products

Dedicated Internet Access
TMC's DIA pricing is so low that it's the most economical choice whatever your data requirements. TMC offers a secure high-speed dedicated connection in a wide range of speeds to meet your unique business needs.
Private Lines
Provide high-speed, dedicated point-to point connectivity (across the state or country) for voice, data and video applications.
Colocation
Provides your business with flexible choices in a highly controlled, carrier-neutral environment. Incorporates more than mere Internet connectivity; it acts as a gateway to Level (3)'s premier network and numerous other carriers.
MultiConnect
Private hub and spoke WAN with Layer 1 security and quality of service, agnostic to protocol and applications.
MPLS
Allows large enterprise businesses to integrate multiple Wide Area Network (WAN) access technologies and protocols. TMC offers a consultative approach to employing a MPLS converged services solution.
